A Noted Mining Authority Tells About the Alaska Gold Fields.

NEW YORK ELEVATOR SCARE

The Present Safety Appliances of No Avail in Nine Accidents Out of Ten-May Cure Rouss' Blindness-Canadian Independence Movement.

DENVER, Col., Oct. 17.-H. Bratnober, the noted mining expert, who is returning to London from Alaska, where he spent several months investigating the gold fields for the Rothschilds, said of the prophesy that the Klon-dike would produce \$50,000,000 within the next year: "The district will probably produce \$5,000,000 or \$6,000,000 during the 12 months we are now entering upon. Considering the age of the camp and the stupendous difficulties to be overcome, \$6,000,000 will be highly creditable to the camp and that means that the prophesied \$50,000,000 may materialize in the course of a few years." Bratnober advises all persons going to Alaska to go in the spring, and says prospectors must not expect too much, as some claims are exceed ingly good and others, even alongside of exceedingly valuable ground, are worthless. He says the claims already located can be worked out in five years. New York Elevator Fright.

NEW YORK, Oct. 17 .- The problem of the safety of persons whose business makes it necessary for them to use ele-vators has been brought to the front by the many elevator accidents of the last month. Reports of both elevator builders and insurance companies yesterday indorsed the opinion expressed by Mr. Finch, of the Fidelity & Casualty company, that the safety devices now in use are practically of no avail in nine accidents out of ten. The gravity of the situation revealed by this declaration may be estimated when it is stated that there are about 7,000 passenger elevators in use in office and business buildings, in hotels and apartment houses in New York city. It is estimated that they carry more than 1,000,000 passengers daily or more than all the street cars and elevated systems combined.

May Cure Rouss' Blindness. New York, Oct. 17. - A new physician has come to cure Charles Broadway Rouss' blindness. He is Dr. Guelph Norman, and he comes all the way from India to do it. He has been treating the blind merchant for a week and Mr. Rouss' says he can now see the doctor's hand when held before his eyes. Dr. Norman is an exponent of the Oriental school of physicians. His power, he says, is occult and he claims he could have cured Mr. Rouss by staying in India just as well as by coming here, but persons would have placed so credence in the cure in that event. symptoms accompanying the dread over Mr. Rouss' head and rul s his forehead with a fluid which he says would alone cure the blindness. Mr. Rouss is a multi-millionaire, and has a standng offer of \$1,000,000 for anyone who will cure his affliction.

TRACING A PACKAGE.

The \$14,000 Lost Receipted for at Omaha by a Clerk, but Afterwards Found Miss-ing.

OMAHA, Neb., Oct. 17 .- The package containing \$14,000, which a Chicago bank consigned to a Salt Lake bank, and which disappeared later, has been traced here, where it is believed a sneak-thief got it. It was delivered at the transfer depot Thursday by Clerk Thomas Pheney to Clerk G. B. Brill. Both of C. B. Pheney's books show Brill's receipt for the pouch. Brill's book shows no receipt for it and he does not remember having seen it. An army of detectives are here looking after the case. The postal authorities are being assisted by the Chicago Bond company, which insured the package. The postal authorities are zealously guarding all avenues from which information concerning the matter might be obtained and it is impossible to get all the facts. It is only certain that absolutely no trace of the missing pouch has been discovered after it left the hands of Pheney.

A Kerosene Lamp Exploded. Sr. Louis, Oct. 17.—Flora Matthews, 38 years of age, residing at 1102 North Sixth street, met with an accident last night that will probably prove fatal. She was entertaining some company in her room when one of her visitors, Teddy Hoffman, arose suddenly. doing so he upset a large lamp, holding a quart of kerosene. There was an explosion, and Miss Matthews' clothing was soon in flames.

Fatal Kerosene Explosion.

AUBORA, Ill., Oct. 17.—Mrs. Joseph Sprich, of No. 249 north Union street, attempted to quicken her kitchen fire yesterday by pouring on a little kero-sene. The gallon can which she held exploded and set fire to her clothing. Before the flames could be smothered the woman was so badly burned that she died a few hours later.

How to Make Ten.

More than half the Tea consumed in the United States and Canada is of Japanese growth, yet, the majority of Americans apparently do not understand how to prepare it so as to develop the delicious qualities which it contains. The Japanese Government has appropriated a large fund to aid the Japanese Tea growers and Tea merchants in prosecuting this educational work, and it is hoped that American ladies will be apt students. The main Bureau of the Japanese Tea Guild has issued an official recipe for making Japanese Tea, the translation of which is as follows:

First.—Use a small, dry and thoroughly clean porcelain teapot.

Second.—Put in one teaspoonful of tea leaves for each cup of tea desired.

Third.—When using Japanese teas, pour on the required quantity of fresh boiled water, and let stand with closed lid from 2 to 3 minutes. Never boil the leaves. In order to retain the natural flavor, Japanese tea leaves should be kept in tight can or jar, free from moisture.

Note.—To thoroughly enjoy the natural, delicate and sweet flavor of Japanese Teas, neither sugar nor cream should be used.
